AS HEALTHFUL AS IT IS DELICIOUS

When in your drug store and want something cool and refreshing just ask the soda man for a dish of Purity Ice Cream, it is delicious and demand that you have Purity Ice Cream. First because it is a tissue builder and has more real food qualities that build strength than nine-tenths of food we now eat. One quart of Purity Ice Cream has the same food value as a pound of round steak, one gallon oysters, four pounds of potatoes or eleven pounds of cabbage. The base of Purity Ice Cream is sugar and cream, which produces heat and energy while proteins and caseins are tissue builders.

Eat more Purity Ice Cream, first because it is made in a factory where cleanliness is paramount, second we sterilize our containers with live steam. Sold at all leading drug stores 150 miles around Hattiesburg.
